Designer · Product, Brand & Marketing · AI

Education

B.Des in Visual Communication, HIT (2021-2025)

Studied visual communication with a focus on branding, UX/UI, typography, illustration, and creative thinking. Worked on projects involving marketing strategy, AI-generated imagery and video, and Unity-based creative development.

Network Computer Manager, Military Service (2018-2020)

Completed professional training in network and system management, including command training and instructor certification in Office and Windows systems.

High School Studies (2013-2018, “Makif Vav”, Ashdod)

Major in Communication, Computer Science (10 units), and English. Graduated with honors.

Employment and Experience

Marketing Designer at Powtoon (2025-Present)

Designing campaigns, landing pages, presentations, social content, and visual assets. Working within brand guidelines, using generative AI tools across product launches, digital campaigns, and external communication.

Graphic Designer at Bad Boy Studio (2024-2025)

Small-scale collaboration with the studio owner, supporting ongoing design needs. Work included creating social media content, promotional graphics, and assisting with simple marketing and visual design tasks.

Freelance Graphic Designer (2022-2023)

- Creating impactful logos, redesigning logos, crafting eye-catching social media posts and providing branding solutions such as T-shirt design and promotional videos.
- Good Sap Studio - Worked on marketing and digital design projects, focusing mainly on illustration alongside social media content, digital ads, banners, and visual assets for campaigns, as well as branding.

Military Service, Instruction and Command - Personnel and Cadet Development (2018-2020)

- Led and managed a team responsible for training and developing data communication personnel and cadets.
- Managed a unit of approximately 30 staff members and 200 cadets, including supervision and professional guidance.
- Delivered training and assessments in Windows, Office, networking systems, and end-user support (Windows 7, Office365, networking fundamentals).
- Provided ongoing feedback, professional evaluations, and support throughout training processes.

Customer Service (2015-2020)

Customer service roles, teaching, and youth instruction, including restaurant service, educational training programs, and youth mentoring initiatives.

About me

I'm a designer working across product, brand, and marketing, currently at Powtoon, focused on creating engaging visual communication across digital platforms. I enjoy collaborating with creative teams, exploring new ideas, and using AI - from image and video generation to vibe coding - to expand creative possibilities. My strengths include strong visual thinking, fast self-learning, teamwork, and ownership.
